CAREER SUMMARY

Analytical, detail-oriented, and a team player with a strong foundation in Computer Science and hands-on experience in data management and analysis. I possess the technical expertise required to manage complex datasets, generate actionable insights, and support decision-making processes. With a keen eye for interpreting data and creating meaningful reports, I aim to contribute not just to data analysis but to the optimization and growth of business operations through informed strategies and innovative solutions.

WORK EXPERIENCE

Data Analyst Intern

Quantum Analytics Nig. - August 2023 to December 2023

RESPONSIBILITIES AND ACHIEVEMENTS:

- Analyzed New York Taxi Trip Reports (2017-2020) covering various KPIs including the number of cars, total taxi trips, average trip distance, and payment types.
- Generated insights from raw sales data using Power BI.
- Processed and visualized stock reports of 10 popular companies (Tesla, Amazon, Apple) from 2015 to 2021.
- Analyzed US DOT Air Travel Reports using DAX for flight delays and cancellations.
- Developed KPIs and visualization report on Brazilian E-commerce datasets using Power BI.
- Conducted health analyses using Nigeria's NCDC data, visualizing confirmed cases, deaths, and discharged cases by state.

Bank Teller

United Bank of Africa (UBA) - November 2019 to June 2021

RESPONSIBILITIES AND ACHIEVEMENTS:

- Attended to customer requests and handled bulk and small cash transactions.
- Managed cash transfers to ATMs and supervised ATM activities.
- Processed foreign currency transactions and handled salary payments for corporate clients.

Corps Member

Kaduna State Internal Revenue, Kaduna - May 2018 to February 2019

RESPONSIBILITIES AND ACHIEVEMENTS:

- Generated TIN numbers for new organizations and performed tax fieldwork.
- Maintained receipts records and documented meetings minutes.
